I really would like to discuss a discharge plan for your son. We should consider all the options that could place your son in the least restrictive environment. I need a statement from social security stating the amount of his benefits. I know one plan would be for him to go to Seattle with his brother but how viable is this plan. Can he return to Ohio where family resides? The treatment team would like to develop a plan for discharge as soon as possible. This is not to say that he is getting out of the hospital today. However, I need to start to work on a plan because housing is often very difficult to obtain in DC.

Thank you for your assistance,

which are unknown to you, such as Tony and myself. We believe placement that is not proximate to family is doomed.

Thank you very much for the Nov. Benefits. It sounds that the best plan at this point is to try and locate housing in DC. I understand your position and have no judgment about your decision because jail is a cold and dark place. I will call you after your nap. Thomas would like to have \$10.00 per week. I think he can handle this since. (we will see).

Thanks,
